

RAJIT M KRISHNA

Bengaluru, Karnataka, India | rajit.m.krishna000@gmail.com | github.com/Rajit2207 | linkedin.com/in/rajit-m-krishna

EDUCATION

REVA University, Bengaluru, Karnataka

Bachelor of Technology in Computer Science & Engineering | 2025 – Present

TECHNICAL SKILLS

Languages: C (Dynamic Memory Allocation, Pointers, Structs, Bitwise Logic), Python, SQL

Hardware & IoT: ESP8266 NodeMCU, Arduino Uno, Analog Sensors, I2C Displays

Tools & Environments: Git, GitHub, VS Code, Linux/Bash CLI

Web Technologies: HTML5, CSS3, JavaScript, WebGL (Three.js)

PROJECTS

IoT Turbidity & Water Quality Monitoring Rig | ESP8266, C++, Hardware Sensors, I2C

- Built an embedded physical computing rig measuring water clarity in Nephelometric Turbidity Units (NTU).
- Programmed second-order polynomial calibration curves to convert raw ADC voltage into accurate NTU values.
- Integrated an I2C character LCD module to stream live telemetry diagnostics and water quality status.

3D Spatial Systems Architecture Portfolio | JavaScript, Three.js, WebGL, CSS3

- Engineered a 3D WebGL corridor with dynamic lighting, particle systems, and interactive 3D waypoints.
- Integrated an automated voice assistant copilot using Web Speech API synthesis and speech recognition.

Low-Level Memory Allocation Architecture | C, GCC, GDB

- Implemented dynamic heap allocation algorithms using malloc, calloc, and free with zero memory leakage.
- Designed pointer arithmetic algorithms for array traversals and nested structure manipulation.

CERTIFICATIONS

- IBM Certified Foundations
- Wadhvani Foundation — Foundational Professional Skills Certification
